SKILLS

FRONTEND DEVELOPMENT: HTML5, NextJS, ReactJS, Javascript, Typescript, Redux, Zustand, Firebase, Tailwind, CSS3
BACKEND DEVELOPMENT: Express, NodeJS, GraphQL, Redis
DATABASE MANAGEMENT: MongoDB, Mongoose, Prisma, MySQL(basic)
TOOLS & TECHNOLOGIES: GitHub, Postman, Trello, Chrome DevTools, Netlify, Vercel

EXPERIENCE

Software Developer   Dhaka,Bangladesh
Innovative IT Ltd | May 2024 – July 2024

- **Developed Tab Startup**, a startup equity sale website with **3 subdomains**. Built an **admin dashboard** in **Next.js** and **backend APIs** with **Express.js** and **Mongoose**, enhancing performance by **30%**.
- **Collaborated with 5+ cross-functional teams** to ensure **seamless integration** and optimized performance, resulting in a **20% improvement** in platform efficiency.

Junior Software Engineer   Dhaka,Bangladesh
Syscon Solution Ltd | Feb 2023 –May2023

- **Engineered** a hospital management app using **React** and **Redux Thunk** for the frontend, and **Express** with **Sequelize** on **MySQL**, optimizing workflows to reduce administrative task times by **50%**.
- **Created** an interactive cricket application with **Next.js**, boosting user engagement by **30%** and daily active users by **20%** through API integration and enhanced design.

PROJECTS

Home Crafter   *Live* | *Frontend* | *Backend*
- **Designed** a multi-vendor platform with 3 distinct roles: **admin**, **provider**, and **user**, addressing complex user needs to enhance overall functionality.
- **Established** features for providers to **post** services, **manage** availability, and **engage** users through reviews. **Integrated** SslCommerz for secure payments, ensuring smooth transactions for **300+ users**.
- **Achieved** a **40% increase** in booking efficiency and **user satisfaction**, boosting **retention rates**. **Enabled** superadmins to **manage 1,000+ users**, establishing Home Crafter as a **market leader**.

Technologies : NextJS, Typescript, Redux, Next Auth, Email.js,Tailwind, Express, Cloudinary, SslCommerz, Prisma

Food Hub   *Live* | *Frontend* | *Backend*

- **Built** a recipe-sharing platform with a coin-based system, enabling users to discover, share, and access recipes, aiming to boost user engagement by **25%** and enhance content interaction by **40%**.
- **Implemented** a secure coin-based system for **10,000+ users** to earn, spend, and purchase coins, incentivizing **1,500+ recipe contributions** and fostering a highly engaged community.
- **Introduced** advanced search, filtering, and pagination features for the recipe-sharing platform, streamlining user navigation and achieving a 30% decrease in bounce rates with higher engagement levels.

Technologies: React, Firebase, Tailwind, SslCommerz, Express.js, Mongoose

EDUCATION

Port City International University   Jan 2018 - April 2022
Bachelor of Science in Computer Science & Engineering
